

An email newsletter can be a fairly simple but effective addition to our overall web presence. While in our day to day business we may not directly interact, through E- newsletter we hope to connect all. Good luck to the new initiative!

Allow me to express my sincere appreciation for the efforts of the CORA Communications team to put together the E-newsletter - a great way to educate those interested in what is going on within the company from time to time.

## Welcome to MOL Pakistan's E-newsletter

Welcome to the first introductory E-newsletter of MOL Pakistan; our purpose is to send out an E-newsletter which will educate our employees about the company - its culture, services and enhance employee interaction. We intend to give you the smallest news and happenings in MOL Pakistan to highlight the biggest of our achievements. We will be sharing relevant and interesting articles related to our organization which will prove to be a great source of information.

The E- letter will be a platform through which we will be able to share our triumphs including awards, events, celebrations, new recruitments and so on. To make our E-letter interesting we would show the lighter side of our business, adding some personal stories – like births, engagements, marriages etc.

*"Since everyone is short on time we will keep it Short, Crisp, Useful & Frequent"*

The continued success of the newsletter will take a collective effort. We would like and want to invite all employees to contribute articles, announcements, information and events even if they are personal that could interest other employees. We welcome your input and need your guidance to continuously improve the E-newsletter for the better communication within our organization.
