

It is that time yet again where we find ourselves bidding farewell to the passing year and welcoming the new one with hopes and resolutions galore. 2015 had been a wonderful year, full of promises and productivity. Though there were quite a few ups and downs evenly spread throughout the calendar year, a lot was accomplished, thanks to the hard work and consistent efforts of everyone on board. You, as members of the MOL Pakistan family, have met adversity with determination, success with joy and have always been the backbone of the company. It is because of you that 2015 was a memorable year for us, and we look forward to 2016 following suit.

Happy New Year
to you all

Merry
Christmas

The Christmas spirit was also in the air at our office in MOL Pakistan. The entire MOL Family celebrated these moments of joys. Some of the highlights are:

Bowling competition

MOL Pakistan 1st Bowling Championship was organized on December 10, 2015 at Mega Zone. The enthusiastic response from submitting nominations to skills demonstrated on the competition day – each and every part of the event was remarkable. 10 teams of 80 players compete with each other to claim the winning trophy. Deliberate dance moves and uproar of team Predator on hitting strike and just dropping one pin; gave them psychological advantage over the opponents. Their strategy of hue and cry coupled with bowling techniques enables them to clinch the winning trophy whereas team Sweet Striker remained runner up. Prize distribution ceremony witnesses the excitement at its peak. Overall the event went successful in terms of providing employees opportunity to have fun on one hand and give themselves a refreshing break from work routine on the other. Management is committed to conduct such events in future as well, aiming at enhancing employee engagement.

MOL PAKISTAN'S TALENT SHINES!

Sarah Akram & Ammar Bin Saleem's research paper on "Knowledge Management & Lessons Learned Initiative in MOL Pakistan" secured both; the "Most Valuable Technical Content" and the 'Best Presentation' Awards at Petroconf 2015 held on 26-27th November in Budapest, Hungary.

Congratulations Sarah and Ammar! Spectacular work!
