

Great start - 2016!

A head office delegation visited us this month, headed by Mr. Berislav Gaso, EVP Exploration & Production and Mr. Brian Glover, SVP Exploration and Business Development MOL Group. It was the perfect opportunity for everyone at the office to interact with and share their ideas with them. In addition to this, the delegation met with key government officials and dignitaries to delineate the success story and future strategies of MOL Group in Pakistan. A meeting of the delegation was also arranged with the Prime Minister which proved to be conducive and helped further the future plans of the Group.

Furthermore, the entire MOL Pakistan family was indulged in an evening dinner party to boost employee engagement and to sustain enthusiasm of all workers. The dinner helped ensure that everyone could connect not only with their colleagues, but also with the top-level management in an air of ease and camaraderie. The top management has always valued the efforts of all employees and was fully involved while interacting with the personnel. It was a brilliant occasion for everyone to soak in light-hearted moments and to feel at home, while, in their individual capacity, to seek means of increased involvement, commitment and productivity at the office. We trust that the promising start the company has taken at the beginning of the year takes us through to the end of it successfully.

We've all bid our farewells to the previous year and have now entered into 2016 with new hopes and aspirations. We trust that the challenges faced in the year 2015 will be our stepping stones to achievement and success this year. With the ushering in of a new year, we've made considerable progress on all fronts. We take this opportunity to take you through how the company has taken the New Year head-on, capitalizing on every opportunity that comes by, utilizing external as well as internal avenues for progress and productivity.
