

The Energy of Positive Change!

Message from the Editorial Board

Dear Readers,
The New Year has started for MOL Pakistan with a number of achievements and we bring you the details as follows, way to go Team Pakistan! Happy reading!

FEMMe Finale 2017

It is an absolute honor for MOL Pakistan to announce the results of the FEMMe scholarship program, whereby, as 69 applicants competed to enter the semi-finals, 2 enterprising ladies from Pakistan made it to the top 7!

The program was one of MOL Group's key initiatives on the Group's diversity and inclusion Roadmap of 2016, and was aimed to increase the proportion of women in technical roles in an industry already quite male dominant.

The top 7 candidates were invited to Hungary around mid-January, where they went head to head delivering presentations on Diversity & Inclusion and appearing for personal interviews. Our proud representatives from Pakistan included Zehra Naqvi (NED Karachi) who is enrolled in Bachelors of Petroleum Engineering program and Sara Mujahid, a UET Lahore student currently enrolled in B.Sc. Geological Engineering.

This competitive pool demonstrated excellent skills and knowledge base in the grand finale held on 31st January, 2017, before the jury members, that included eminent names such as Mr. Ahmed Nawaz, COO MOL Pakistan.

Sara Mujahid yet again stood out as one of the three finalists to be awarded the FEMMe scholarship, the other two being Nikolina Petrovic (Croatia) and Aniko Dora Kazup (Hungary).

We extend our heartiest congratulations to the lucky winners especially Sara Mujahid for making us proud by representing Pakistan. We hope FEMMe will offer a platform for these young talented females to develop their skills, extend their knowledge in the oil & gas industry and realize their true potential as market leaders.

Bottom right: Sara Mujahid- FEMMe Scholarship Winner

Musical Night at CPF

CORA Administration created an atmosphere of excitement and fun at the CPF by hosting a thrilling musical evening on the eve of 14th Feb. Ghani Shah, the opening star of the show enthralled the audience with a unique Pashto performance alongside a wide array of Attaullah Khan Essakhelvi hits. Amongst the vocalists at the musical evening were Tehmina and Ashir who entertained the crowd with latest hits along with a nostalgic mix of yesteryears, accompanied by a talented entourage of musicians playing the Harmonium, Tabla, Rabab, Dholak and Bass Guitar. The end of the evening was peppered with a dash of masti and dance moves were set at default mode when some of our very own including Atif Hayat and Aneesa Manzoor captivated the audience with their melodious tunes, way past midnight! CORA Administration as always came through with success, and whetted our appetite for many such occasions in the future as well!

Cancer Awareness

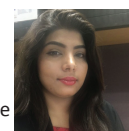

In accordance with World Cancer Day, marked on Feb 4th each year to raise awareness of cancer and to encourage its prevention, detection, and treatment, the HR department in collaboration with United Insurance Company (UIC) & Maroof International Hospital conducted a health awareness session on "Introduction to Cancer" and "Cancer Surgery", for the benefit of the employees at the Office.

The session was conducted by Dr. Kashif Ali Khan, Oncologist Surgeon, along with Dr. Faisal Murad, General & Laparoscopic Surgeon. Both doctors briefed the participants on the rapid spread and multiplication of various types of cancers, including Esophageal and Thyroid Cancer.

The doctors strongly recommended early detection, prevention and screening tests for effective management and control of the so called 'silent killer'! Upon conclusion of the session, the audience was convinced on the famously quoted medical slogan, 'prevention is better than cure' and hopefully resolved upon adopting a healthy lifestyle and not being resistant to regular visits to the doctor. Remember: Don't be Scared. Be Aware!

Welcome to new member of CORA Administration

We extend a very warm welcome to Attia at the Islamabad Office.

Attia Maryam
Assistant Administration Officer
