

The Energy of Positive Change!

Message from the Editorial Board

Dear Readers,
The last month has been brimming with achievements on part of MOL Pakistan. With this new installment of the E-letter, we bring you highlights of these accomplishments, so take a look!

Women's Day Celebrations

Celebrated every year on March 8, International Women's Day is a time the world recognizes women for their achievements regardless of divisions, whether national, ethnic, linguistic, cultural, economic or political. Keeping that in hindsight, the females at the office had a lovely start to their day as each one received flowers and cupcakes by the HR Department and were later invited to a spectacular lunch chaired by the new MD Mr. Nagendra Giri at our very own office cafeteria. Highly appreciated by all the females, the lunch presented an excellent forum to introduce themselves to Mr. Giri who highlighted the importance MOL Group attaches to gender diversity and values the role females at MOL Pakistan are playing in its overall success. HR Director, Ms. Fauzia Ahmed talked about women empowerment and how some self-reliant women of today have taken over the world in the past two decades.

Mr. Giri along with Ms. Ahmad also commemorated the tireless efforts and commitment of female engineers at the Field via teleconferencing. The ladies were invited to a lavish dinner hosted in their honor by the field administration followed by a cake cutting ceremony. The bouquet and a surprise gift presented to the ladies surely marked an exciting end to their day.

Farewell Dinner for MD Akos Grosz at Serena Hotel Islamabad

Warm welcomes and heartfelt goodbyes are part and parcel of any corporate firm, and it was no different for MOL Pakistan when a grand dinner was hosted at Serena Hotel Islamabad to bid farewell to Mr. Akos Grosz and at the same time warmly welcome Mr. Nagendra Giri as the new Managing Director of MOL Pakistan.

The Shamadan Hall gleamed beautifully as the guests entered and were seated around organza covered tables spread with red velvet runners. Regional Advisor MEA & P, Mr. Ali Murtaza Abbas after welcoming the guests invited the audience to say a few words bidding farewell to Mr. Akos Grosz, who was appointed the MD of MOL Pakistan in July 2014. In his farewell speech, the former MD gladly shared his work experience at the Office and expressed his memorable stay in Pakistan packed with travel, sightseeing, delicious food and love for Pakistani music, mentioning of which he ended his speech singing Dil Dil Pakistan. It was an honor for us to have Mr. Thomas Melvin Quigley, COO MOL Group Upstream present on this memorable occasion. He appreciated MOL Group's commitment to the development of an economically secure and progressive Pakistan with the hope that MOL Group will continue to invest and build the E&P sector of the country. Speaking at the occasion, Mr. Nagendra Giri shared his professional journey in the oil and gas industry and expressed the honor he has received in taking the role as the new Managing Director. All in all, a truly elegant occasion, combined with beautifully served dinner and a long list of good wishes received from co-workers made for a memorable night.

Golden Barrel & HSE Chairman Awards

The Golden Barrel and the HSE chairman awards were recently announced for teams to submit their innovative business or HSE projects and win valuable prizes. In line with MOL Group's idea of acknowledging big achievements, the HSE Chairman award is focused on rewarding either consistent HSE excellence or implementation of new creative ideas in every day operations. The Golden Barrel award on the other hand is set to showcase collaborative and innovative achievements that lead to profit, value creation, growth, customer engagement and result in a significant positive business impact.

Around 16 applications from MOL Pakistan were drawn in and 13 shortlisted projects sent to the Head Office from Drilling, SOD, Exploration, Reservoir, HR and Security departments. These submitted applications will be evaluated by a senior managerial Jury and approved by the Executive Board, and eventually showcased for the entire MOL Group. Fingers crossed and all the best to team Pakistan!

**MOL GROUP
HSE CHAIRMAN
AND GOLDEN BARREL AWARD**
