

The Energy of Positive Change!

CONGRATULATIONS GROWWERS!

MOL Pakistan would like to congratulate MOL Pakistan Growwwers 2018/19 Team on their well-deserved success. The team secured 3rd position in the MOL Group GROWWW Team Task Competition 2019 which took place in Százhalombatta, Hungary on June 18, 2019. The top six teams of 2018/19 GROWWWers presented a topic from their relevant areas of profession in front of a jury that comprised of group-level leaders.

MOL Pakistan's GROWWW team (Sara Mujahid, Ruhma Khalid Butt & Mansoor Aftab), presented on the topic of "Live the Core Values - Be the Change!" which was focused on the importance of a healthy corporate culture in today's competitive environment. They highlighted MOL's core values (People, Ownership, Agility and Customers) and how their practice can be enhanced.

The judges commended the team on their performance and their work was highly appreciated by all.

EID-UL-FITR CELEBRATIONS AT CPF/GPF

The long-awaited and festive Eid celebrations at MOL Pakistan's Central Processing Facility were held with great fervour on a bright Saturday morning, after the staff had offered their Eid prayers at the CPF mosque. The field management arranged exciting activities for all to enjoy, as they are away from their family and loved ones on this special occasion. Lots of fun team games, lucky draws, movies, group events and traditional food was arranged for the three days of Eid.

On Day 1, the staff engaged in a blindfold race and a football match. On Day 2, a movie was showcased at the field auditorium followed by a delicious lunch on the field grounds. The staff then participated in a sack race, followed by a badminton tournament. On Day 3, everyone was put to a test of strength with a game of tug of war, followed by a volleyball match. The eventful Eid Gala came to a close with a surprise musical evening followed by a scrumptious barbeque dinner to end the festivities. The staff truly appreciated the efforts of the management in this regard.

HSE CHAIRMAN AWARD 2019

In line with MOL Group's idea of acknowledging big achievements, the HSE Chairman Award is focused on rewarding consistent HSE excellence and implementation of new creative ideas in every day operations.

MOL Pakistan's Production Directorate is proud to have won the award for the year 2019, for the implementation of its state of the art "Nano Bio Treatment Plant". To celebrate this achievement and honour the winners, MOL Pakistan arranged an award ceremony where the higher management of MOL Pakistan including the MD, COO, Director Production and Head SD & HSE were in attendance.

Dr. Gabor Vakarcs, MD/CEO MOL Pakistan, presented a Certificate of Achievement to the winning team; Mr. Zaheer Alam, Mr. Umar Siddique, Mr. Fawad Kiramat and Mr. Adeel Ahmad. A trophy was also presented to Mr. Khawar Anwar, Field Manager at CPF for his team's remarkable achievement.

Dr. Vakarcs also presented an award and certificate of recognition to the team behind the successful execution of job on Makori – East. The safety champions and best stop card winners from the past few weeks were also recognized for their efforts and were presented with gifts. The ceremony came to its conclusion with Dr. Vakarcs congratulating everyone for making MOL Pakistan the most successful flagship of MOL Group.

PETRO CONFERENCE 2.0

Early in June, MOL Group E&P hosted its 2nd In-house technical conference in Budapest to share their views on the recent upstream trends and business challenges. More than 140 participants from MOL Group and its subsidiaries joined the event.

The conference was opened by Mr. Thomas Quigley, Group E&P COO, along with opening remarks by the SVPs, Carsten Andersen, Attila Somfai and Dubravko Lucic, and a welcome speech by the new Upstream Innovation Lead, Anita Csoma, who was also the host of the event.

The conference consisted of four core sessions of oral presentations and posters; Exploration Geoscience, Subsurface and Field Development; Project and Production; Innovation and Data Management. The best technical contents were awarded in each session: Zsolt Nagy (MOL Hungary) for Exploration Geoscience, Samana Ishaq (MOL Pakistan) for Subsurface and Field Development, Sohail Shakeel (MOL Pakistan) for Project and Production, Victoria Adestâl (MOL Norge) for Innovation and Data Management, Mihály Apró and Maxim Vassilkov (MOL HQ) for the Poster session.

Workshops and brainstorming sessions focused on innovation in the various lifecycles of the business as well as on digitalization and data management. Inputs from the workshops and brainstorming sessions will be used to define Upstream's technical competency development and innovation strategy. The conference was a great opportunity for knowledge sharing and networking across the upstream community with technical and social programmes.
